

My dad Vincent Pasquarelli teaches me about being safe on the road. He says you have to watch out for the other drivers on the road so you dont end up in a wreck. I try my best to help my dad clean his truck so that he is safe on the roads, one of the main things we clean are the windows because its important that he is able to see on all sides that way he would know if anybody tried getting into his lane. He also taught me that when you go through a work zone it's important that you obey the speed limit so you dont hit the workers. I'm glad my dad taught me the safety of the road because one day i will need it when i drive. Until then safe TRUCKING everyone. (Beep Beep)
