

"A Safe Trip With Trucks" (and attached artwork)

by Grant Austin Pease, Age 6

Grandson of Lew Rowden

office

I once counted 118 18-wheelers on my way to visit YiaYia and PaPa in Dallas. On the trailers I have seen pictures of animals, food, TV sets, and Animal Planet cards. On my last trip we saw lots of road construction including front loaders, bulldozers and other construction vehicles. Some of the 18-wheelers delivered equipment to the construction sites.

It is important to slow down when we see flaggers, traffic drums, or special traffic signs. We stayed out of the truck "No Zone" which is right beside and behind the big truck. Give big trucks plenty of space. Follow the signs safely. Everyone should wear their seat belts. Do not be an aggressive driver. Thanks to SAFE truck and car drivers sharing the road, I made it to Papa's house safely.
